Market America Overview
Founded in 1992, **ma** is a Product Brokerage and Internet Marketing Company that specializes in One-to-One Marketing & Social Shopping.

In Order to be Successful
Approximately every 10-20 years, a new marketing system emerges as a better way of distributing products to the end consumer.

Bloomberg MARKET AMERICA ACQUIRES SHOP.COM

President & CEO, JR Ridinger interviewed on Bloomberg TV

In December 2011, Market America acquired SHOP.COM — a pioneer in online comparison shopping — creating a powerful, new social shopping destination poised to challenge the Internet's leading e-commerce sites.

The acquisition combines SHOP.COM's strength in technology and merchandising with Market America's business model combining a high-touch, personal shopping experience with the industry's only unlimited Cashback program.

ACQUISITION BENEFITS

SHOP.COM is recognized for the best comparison shopping technology.

SHOP.COM has award-winning merchandising functionality and display. It makes shopping appealing and easy, which increases conversions.

Faster search and better navigation for shopping.

Capture and retain millions of new customers from first time purchases and assign the new customers to 'Shop Consultants'.

Attracts a constant flow of new customers from their SEO and SEM efforts.

Features ma®-branded products on the SHOP.COM site as a channel to attract new customers.

Cashback

Earn Cashback for purchasing eligible Market America-branded products and those from our Partner Stores where you see the Cashback logo.

Plus, get 1/2 percent cashback on eligible purchases made by people you referred to SHOP.com.

Find exactly what you need from tens of millions of products and services using our lightning fast search technology. Shop from home and save time, gas, and the hassle of fighting crowds. The Cashback program rewards you for doing what you already love to do — shop!

Market America Ranked #1 Most Improved Online Retail Site

Market America was rated the number one Most Improved of Top 100 Online Retail Sites for 2010 -by the ForeSee Online Retail Satisfaction Index.

The publication notes, "...as we emerge from the economic downturn, top retailers are once again investing aggressively in the online customer experience and recognizing the future value of a satisfied web shopper." This has been Market America's mission all along, and, as JR Ridinger says, "the proof is in the pudding." We are Built on Product and Powered by People® — and we are powerful indeed!

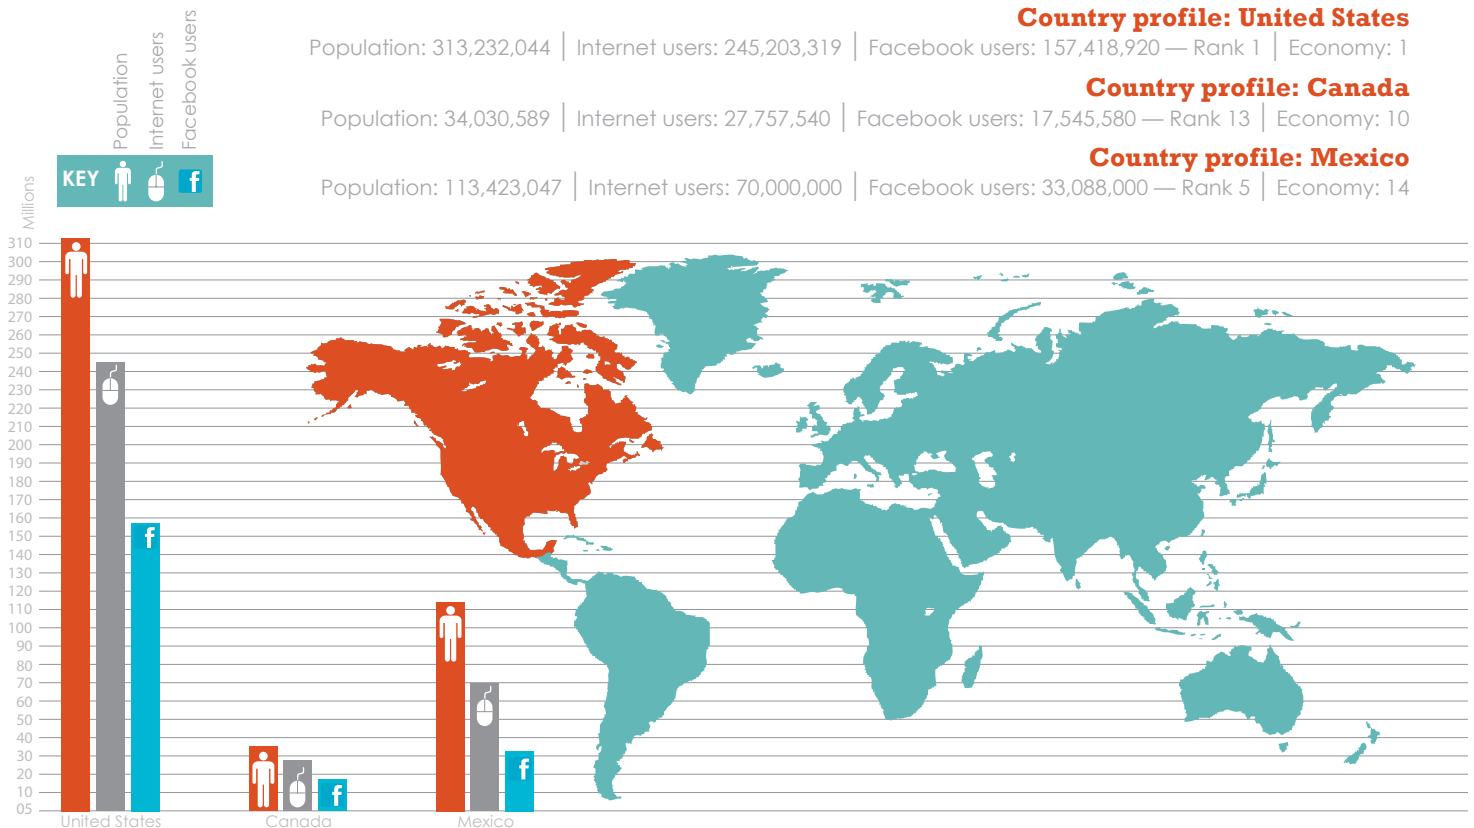

Market America Ranked #70 on Internet Retailer's Top 500

Despite continued worldwide economic challenges, Market America experienced another solid year of sales growth for 2011.

The *Top 500 Guide* breaks down financials, operations, customer satisfaction, performance, marketing, corporate information, website features and functions, payment systems and vendors.

Market America enables you to always be on the forefront of the latest technology and capitalize on the growing social and economic impact of the Internet, social networking and online shopping. The advancements in technology are making communication and connectivity instantaneous, thus fueling the UnFranchise® businesses of our growing global community of entrepreneurs.

Social media (e.g., Facebook, Twitter, YouTube) provides a valuable tool to reach people, instantly exposing them to products, services and our business system.

Create a virtual storefront with SHOPBOX within your Facebook page that allows friends to shop and checkout without ever leaving Facebook to create sales (see video below).

Although social media is a valuable tool, it will not take the place of personal interaction and relationships. The combination of people power and

technology is the solution, and Market America offers both!

While other companies are trying to build social networking into their shopping sites, Market America has taken the opposite approach, bringing shopping to Facebook with an application called "ma Network".

On social networks, there is a wealth of information. People tell you more about themselves than they would ever reveal on a shopping site. There is so much interactivity going back and forth between people — their likes, their dislikes, their wants, their emotional experiences, how they are feeling at the moment, and what they experienced throughout the day.

ma Network bridges the gap between social media and online shopping with one simple, easy-to-use interface that lets you search, shop, save and share with over 900 million potential customers!

A Web Portal + The UnFranchise System + Management Performance Compensation Plan + Social Media + People Power = Ongoing Income!

Social Media Revolution

Shopbox

The Internet changed the way people shop, but the paradigm is shifting once again. The **SHOP Mobile** application allows users to browse and purchase from shop.com and its thousands of Partner Stores, plus it offers the same Cashback program and comparison shopping — all from the palm of your hand.

BUILT ON PRODUCT

As a product brokerage company, Market America and SHOP.COM identifies the highest quality market-driven products and services. By moving with the marketplace, Market America does not rely solely on the sales of any single product or service.

Without the costly burdens of manufacturing, mass marketing and advertising, greater resources are placed in product development and quality assurance, which guarantees that everything we offer is backed by substantial science, rigorous testing and peer-reviewed research.

With over hundreds of exclusive products and services, Shop Consultants can capitalize on numerous multibillion-dollar industries including health & nutrition, cosmetics, anti-aging, weight management, home & garden, pet care, auto care, financial services and more.

UnFranchise® businesses do not rely on the sale of any single product or service, resulting in short-term and long-term stability and profitability. Whatever the trend, Market America is in a position to capitalize on it.

Isotonix®

The world's most advanced nutraceuticals

Market America's Isotonix® products offer the fastest and most efficient delivery system of nutraceutical supplements. Isotonix, when used as directed, will provide the precise quantity of nutrients your body needs so you receive maximum results.*

What does isotonic mean?

Broken down to its roots, "iso-" means the same and "tonic" means pressure or tone. When describing solutions meant for consumption, isotonic means having the same fluid pressure as bodily fluids, i.e., the solutions of food entering the small intestine from the stomach for absorption.

The fluid pressure of solutions across semipermeable membranes, like the walls of the small intestine, is generally referred to as having a particular osmolality. It can be said that when solutions on opposite sides of a membrane have the same osmolality, they are isotonic.

The Isotonix delivery system

Isotonix products are formulated with the proper balance of fructose, d-glucose, citric acid, potassium bicarbonate and other key ingredients to assure that they are isotonic and effective when properly prepared.

When you ingest non-isotonic nutritional supplements, your body must work for hours to digest and absorb the benefits and a percentage of the nutritive value is still lost. Because Isotonix products are powders, none of the fillers, binders and coatings common to tablets are necessary. It greatly decreases the amount of time and work necessary to absorb a supplement.

Concentration and absorption

Concentration refers to the amount of nutrient dissolved in solvent and is often related to the efficiency of nutrient absorption. Since Isotonix products experience little dilution in the gastrointestinal tract, they arrive in higher concentrations and are more efficiently absorbed.

Market America is the worldwide exclusive provider of isotonic-capable Pycnogenol® – Isotonix OPC-3®

Pycnogenol® is a natural plant extract from the bark of the maritime pinetree, which grows exclusively along the coast of southwest France in Les Landes de Gascogne.

Pycnogenol extract has three basic functions — it is a powerful antioxidant, it selectively binds to collagen and elastin, and promotes the production of endothelial nitric oxide, which it supports normal vasodilation of blood vessels.*

“OPCs (Oligomeric Proanthocyanidins) are among today’s most powerful and promising free-radical fighters. They are actually a family of antioxidants that are more powerful than vitamins C and E, (long held as the gold-standard antioxidants). Horphag Research was founded in Berlin in 1925, and can be considered a pioneer of the dietary supplement and health food industry. Today, Pycnogenol is exclusively supplied worldwide by Horphag.

nutraMetrix is a customized wellness solution for health professionals. It allows health professionals to offer their patients science-based nutraceuticals, effective weight management programs and custom supplementation products to improve their overall health—simultaneously creating additional revenue for the practice.

The innovative **nutraMetrix business model can allow you to achieve unprecedented financial success.** More than a traditional wholesale-retail return, nutraMetrix has created an unprecedented financial return through leveraging the power of health professional relationships.

nutraMetrix offers a complete line of advanced nutraceuticals, many of which are available in an isotonic form. nutraMetrix Isotonix® products are unlike any other nutraceuticals on the market. Normally, when a vitamin or mineral supplement tablet is ingested, the body must work for up to four hours digesting and absorbing the nutrients. During this lengthy breakdown process, a percentage of the nutritive value is lost. Isotonix products are powders; therefore, none of the fillers, gelatin capsules, binders, coatings and lubricants common to tablet manufacturing are necessary. As a result, the amount of time and work necessary to absorb a supplement is greatly decreased.

No longer use a “one size fits all” approach to nutritional supplementation. **Gene SNP™ DNA Analysis merges an individual’s diet, lifestyle and environment with their genetic information** to provide highly customized supplement regimens. With a customized, comprehensive report for each patient, you will have the tools necessary to motivate your patients to stay in optimal health.

Our trained **nutraMetrix Consultants (NCs) are resourceful, devoted individuals who work closely with you and your staff.** They provide resources for a smooth implementation of our products and programs in the convenience of your own office. With numerous corporate trainings, our NCs are equipped with the resources and knowledge to help train your staff and achieve unprecedented financial success.

As a commitment to your professional education, **nutraMetrix is the principal corporate sponsor of the nutraMetrix Educational Institute (nEI), a nonprofit, 501(c)3 organization** providing accredited continuing health professional education in nutrition and nutraceutical applications.
